Dear Jim and Lesley:

We are now proud owners of a new school site, thanks to both of you and your expertise. We never imagined how involved, time consuming, and frustrating the process of building a new school could be. However, we believe the rewards far outweigh the "pain".

Your knowledge and patience were invaluable, and we could not have accomplished this without you. Thank you so much for all you have done to guide and support us.

Sincerely,

Vickey Rinehart
